

Guia de montagem

Controlador Padrão

MakerWorld

Ferramentas adicionais que você precisará

Cola instantânea

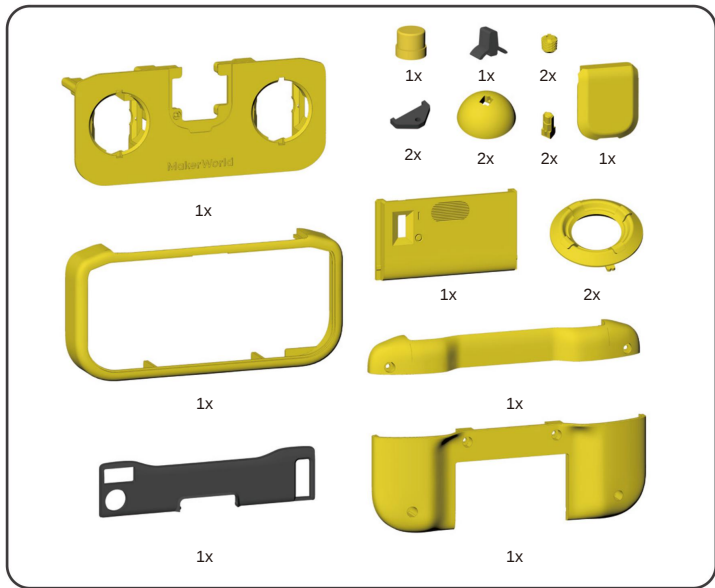

Pilhas AAA X3

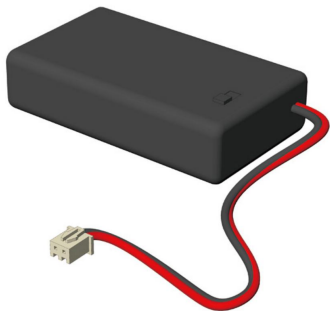

Chave sextavada H1.5

- Por favor, garanta o uso seguro de ferramentas afiadas e cola instantânea; a segurança vem em primeiro lugar em tudo o que você fizer!
- O modelo contém muitas peças pequenas. Prepare um recipiente para armazená-las e evitar perdas.
- Para peças que serão coladas, primeiro monte-as frouxamente para verificar o encaixe antes de aplicar a cola.
- Dependendo da sua habilidade de montagem, o tempo de montagem pode variar de 1 a 3 horas. Se tiver algum problema, não desanime. Deixe uma mensagem na página do modelo ou busque ajuda na comunidade.
- Vamos construir!
